Number 10

13th February 2026

Although it has been a short half term it has certainly been a busy one. All of the children have been working incredibly hard and taken part in a wide range of learning experiences both inside the classroom and outside in our school grounds. We have welcomed a number of visitors into school, celebrated Christingle at St Michael's Church and enjoyed a night of dancing at the Snowball Disco last night.

We have also enjoyed meeting Reverend Robert Icke who is the new Rector at St Michael's and who has already visited our school for both worship and the Adventurers after school club. We look forward to him becoming part of our school community.

After half term we have our World Book Day celebrations (see letter emailed) and will also be holding a family evening muddy puddle walk - more details will be sent home straight after half term.

Thank you for your support this half term and have a wonderful half term holiday.

**Through God we Love, Laugh and Learn**

***'This is the day that the Lord has made; let us rejoice and be glad in it.'* Psalm 118:24**

## Early Years

Exploring other cultures and traditions, we have been learning about Lunar New Year. We enjoyed retelling the traditional story, exploring chopsticks, painting dragons and writing in Chinese.

Also to end our Topic we have had a great day dressing up as who we want to be when we grow up!

Fantastic upcoming professions in the years to come!

## Nursery

We have been learning all about Lunar New Year.

We have taken part in dragon dances, opened our own Chinese restaurant,

filled lucky money envelopes full of coins, and threaded manes onto horses to celebrate this being the year of the horse!

## Year 1

We have been making Sculptures as part of our Art this week.

We have made Arctic and Antarctic animals.

The end results were super!

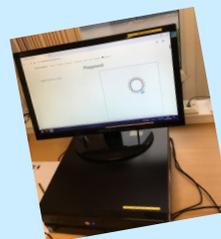

## Year 2

We have been creating lots of artwork to do with our Polar Topic including making igloos.

It was a bit of a sticky activity!

## Years 3 and 4

We have been writing algorithms in our computing lessons, and creating different shapes and patterns.
