Dear Parents and Carers

Re: Artificial Intelligence Stone Age Journey – Friday 23rd October 2026

As a part of our Stone Age Topic this half term, we have arranged for the children in KS2 to take part in a new stone age workshop for at least 45 minutes in school. The company 'Giant Journeys' will deliver this educational session.

The children will take part in the following session:

Step back thousands of years and meet **Taki**, an 11-year-old child living in the Stone Age.

In this unique and immersive workshop, pupils travel back in time to discover what life was really like for the first humans. Through storytelling, investigation and live interaction with our AI character **Taki**, children explore how people survived, hunted, created tools and communicated long before modern civilisation. And the most exciting part? Your pupils can **talk directly with Taki** and ask their own questions about life in the Stone Age.

It's history brought to life in a way children will never forget.

This workshop session will take place on **Friday 23rd October 2026** in school, as part of the normal school day. We would like to thank the PTA for subsidising this session and in order to cover the full cost involved in providing this educational workshop we are asking parents for a voluntary contribution of £4.00 per child. This can be made in the usual way through SchoolMoney.

Thank you for your continued support.

Yours sincerely

Miss J Barrington

Year 3 Class Teacher
