Through God, We Love, Laugh and Learn.

Our EYFS Curriculum Map – Autumn 2

Let's Celebrate!

Communication and Language

Our EYFS curriculum focuses heavily on communication and interaction. We love listening to the children's ideas in their discovery time and learning new vocabulary.

This half term we will continue building confidence to talk in front of our peers and using our listening ears to listen to one another. We love to share our weekend news and tapestry is great for this. As our topic is based on celebrations we will also discuss celebrations we enjoy such as birthday, Christmas and much more!

PSED

Personal, Social and Emotional Development.

This area of learning is similar to PSHE and we will be focusing on friendships and turn taking. The children will explore sharing, team games and how to look after each other.

Physical Development

PE day – Friday.

We will be doing indoor PE this term. Please ensure your child has their indoor pe kit in school in a small bag. This is just a white tshirt and black shorts. Part of our Physical Development is learning how to get dressed and undressed for PE with more independence.

Our PE will focus on core body skills, different ways we can move our bodies and begin to explore pushing and passing balls between us. We will also begin some yoga to build our core muscles.

For our fine motor we are practicing using scissors safely, threading, tweezers, holding a pencil correctly and writing our name.

Literacy

Our phonics this half term will continue Phase 2 phonemes and the children will practice more segmenting and blending to read. We are focusing on reading and beginning to write CVC words (consonant, vowel, consonant e.g cat).

Your child will continue to bring their reading book home which is given out every Thursday. We will collect their books back in every Tuesday so those days in between without a book, please read for pleasure with their library book and books from home.

Mathematics

We follow mastering number and this half term we will explore subitising amounts, looking at the composition of numbers to 5 and introducing the part whole model.

We will also be exploring shapes, measure and positional language vocabulary.

Singing nursery rhymes with numbers in is also a great way to remember numbers and counting skills.

Understanding the World

We will be exploring and comparing festivals and celebrations around the world such as Diwali, Christmas, birthdays and much more.

RE – Why is Christmas special for Christians? We will learn about the birth of Jesus and Christmas time ready for our nativity show.

Seasons – Autumn and winter and the changes we see.

Expressive Arts and Design

The children will develop skills through the role play corners set up and creative areas in class. We have a focus on fine motor skills through play dough, painting and cutting.
We also love to sing and will enjoy daily nursery rhymes, learning worship songs and our nativity songs.

How can we explore colour? Our art will focus on colour through collaging, colour mixing and printing.
